Dear Sir:

In response to your enquiry of January 26th, I beg to advise that the Numismatist is published by Mr. Frank G. Duffield, 1811 Mosher Street, Baltimore, Md. The subscription price is \$1.50 annually. If you become a member of the American Numismatic Association (an entirely different organization from the American Numismatic Society), the dues and the subscription amount to Two Dollars, although I think that there is an initiation fee of One Dollar in addition.

Trusting that this will give you the desired information,

Very truly yours,

Secretary

Dear Sir,

I have in hand the publication of your Association : "The Numismatist", and read an interesting article about a new plaque for the Collectors' Club, page 741 of the number of December last.

Mr. Hyde who is looking for all kinds of objects of art allegorical of the four or five parts of the world, would be very grateful if you could obtain for him, either from Mr. Swanson, sculptor, or from the Collectors' Club, which address I do not know, a plaque if possible, or at least a reproduction of it, for which he will gladly pay. It would be very interesting for him to have it as he is writing a book about the allegorical representations of the Parts of the World, and this plaque seems to be very interesting in that way.

With my best thanks in advance,

Yours truly,

Dear Sir:

In response to M. Guérillot's letter of January 19th, I beg to inform you that I communicated with Mr. Swanson concerning the medal for the Collector's Club. It is not yet finished. It is to be an Award medal, but Mr. Swanson is going to try to obtain a copy and I will be glad to write you again as soon as I receive definite information as to whether or not he is successful in this effort. In the meantime, if you care to give me a little more explicit statement with respect to the limitations of your book, I shall be glad to bear this field in mind should I learn of any other medals.

Very truly yours,

Secretary

Dear Sir,

Thanks very much for your letter of February 5th, telling Mr. Hyde, that Mr. Swanson is going to try to obtain a copy of the medal which interests him so much. Mr. Hyde is just now travelling in Egypt and will return soon, but as I buy all objects of art which are liable to interest him in his absence, I will try to give you some details as to what he is looking for. He has already written an article in "The Gazette des Beaux-Arts", about the allegorical representations of the Four Parts of the World in tapestries, of which I send you a copy under separate cover. He is now preparing another article for an American Magazine of Art about Painting on the same subject, and will afterwards publish his book on the allegorical representations of the Four Quarters of the World in all the Fine and Applied Arts : Painting, Sculpture, Tapestries, Architecture, Engravings, Ceramic, Medals, Needlework, etc... Mr. Hyde has a fine collection of all kinds of objects of art in that line; should you learn then of any other medal as interesting as Mr. Swanson's, it would be very kind of you to write to Mr. Hyde who would be very thankful I am sure.

I am sending your letter to Mr. Hyde in Egypt who will be so glad to know you may obtain this medal for him.

Hoping you will be successful and with my very best thanks,

Yours very truly.

Dear Mr. Hyde:

In connection with your search for medals depicting the Continents, has your attention been drawn to the plaque designed by Miss Kitchener, an English sculptor, and entitled "London"? I am not quite sure that it meets the requirements of the field in which you are interested. The plaque is sold for about two dollars, if I am correctly informed.

Very truly yours,

Secretary

Dear Sir,

Thanks for your letter of February 19th, drawing Mr. Hyde's attention to the plaque designed by Miss Kitchener entitled "London". It is not quite what Mr. Hyde is looking for. A town or a country alone, personified, is not the allegory of a continent; the four continents : Europe, Asia, Africa and America are generally represented in the same way in all branches of art. Europe as a rule, wears a crown, holds a sceptre in hand and is accompanied by a horse and the attributes of arts and sciences. Asia holds a scent-burner and is accompanied by a camel. Africa is usually represented by a negress accompanied by a lion. America, by Indians wearing feather head-dress and kilt accompanied by a crocodile. Of course, it happens that the artist brings a little variety in these allegories, as is the case for the plaque for the Collector's Club which interests Mr. Hyde, but they are however very characteristic of the continent they represent.

Hoping you may come across objects of art which would be interesting for Mr Hyde's book,

I remain

Yours very truly.

Dear Sir:

Referring to yours of the 16th, I beg to advise that a copy in bronze of the Collectors Medal, concerning which I have already written you, is being taken to Paris by Mr. Alfred F. Lichtenstein, who is responsible for the medals having been made. He will send it to you when he reaches there. I believe he is to be at the Hotel Maurice in connection with the philatelic Convention or Exhibition. I talked with him yesterday, and he is very glad to present a copy for Mr. Hyde's purposes.

Should I learn of further medals or coins which would be of interest, I should be glad to communicate with you.

Very truly yours,

Secretary

Dear Sir,

I am very pleased to learn from your letter of April 24th to my secretary, that a copy of the plaque by Mr. Swanson is being sent to me; it seems to be very good from the description I read in The Numismatist., and I will add it to my collection with pleasure .

As my secretary told you already, I am very much interested in all kinds of objects of art allegorical of the Four Quarters, and I will be thankful for any medal or coin you might find in that line and of which you will be kind enough to let me know.

With again my very best thanks, and hoping I am not taking too much of your time,

Dear Sir:

Thank you very much for the copy of the supplement to the Harvard Alumni Bulletin, with the very interesting account of excavations carried on in Egypt by Harvard graduates.

I do not know of an account that is at once as succinct and comprehensive.

Mr. Whittemore is one of our members and many others of the individuals mentioned are well-known to either Mr. Newell, our President, or some of the other members of our Council.

Thank you very much indeed for thinking of sending a copy to me.

Very truly yours
